- There must be a system to stop duplicate data in UI and there must be no duplicate data in "CURRENT CLUSTER MARKET REPORT" excel file.

FR 3- Error Message Issue.

The top screenshot shows a Microsoft Excel spreadsheet titled "RetailerNIDUploadSampleDownload 10.xlsx - Microsoft Excel (Product Activation Failed)". The spreadsheet has two columns: "RetailerCode" and "NID". The data is as follows:

RetailerCode	NID
R199558	1234560099
R199581	1234560099
R199582	1234560101
R199583	1234560102
R199585	1234560103
R199586	1234560104
R199588	1234560105
R199589	1234560106
R199591	1234560107

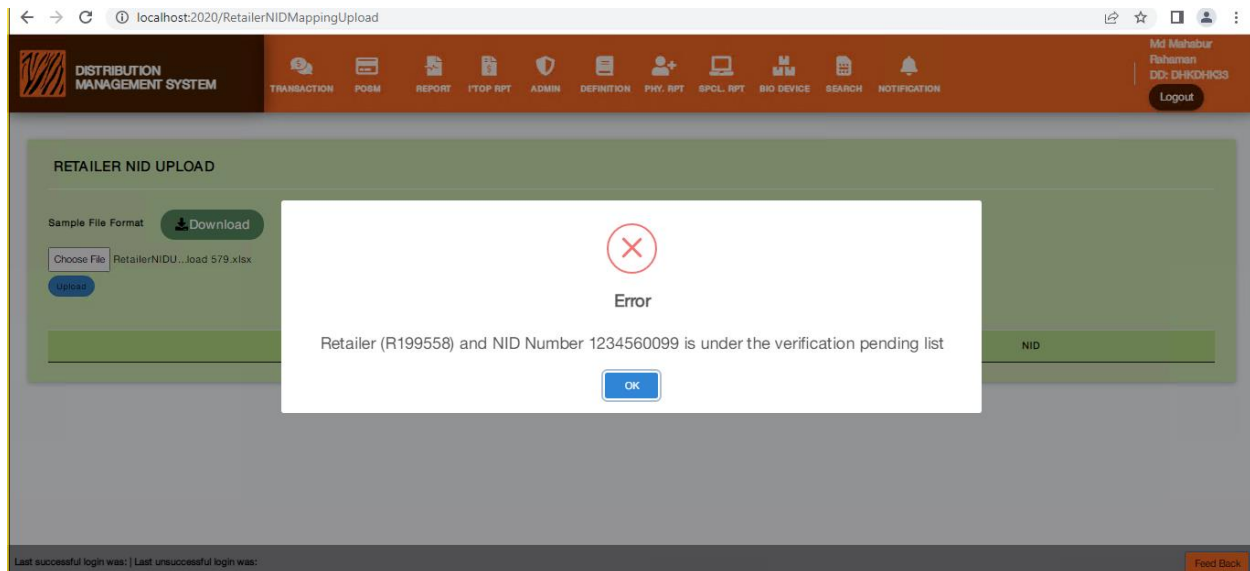

The bottom screenshot shows a web application interface for "DISTRIBUTION MANAGEMENT SYSTEM". A modal dialog box titled "RETAILER NID UPLOAD" displays an error message:

Error

Another Retailer (R199558) Found in Retailer RDB By This 1234560099 NID Number

The dialog box has an "OK" button. The background interface shows a sidebar with various menu items and a top navigation bar with user information: "Md Mahabur Rahman" and "DD: DHKDHKS".

- This "Another Retailer (R199558) Found in Retailer RDB By This 1234560099 NID Number" must be changed to "Multiple Retailer Found in Retailer RDB By This 1234560099 NID in File."

- This message “Retailer (R199558) and NID Number 1234560099 is under the verification pending list” must change to "Retailer (R199558) and NID (1234560099) is under verification pending list".

FR 8- Select all checkbox system
